

job description

Role: Junior Test Analyst

Department: Digital

Location: Hartlebury or Manchester

Salary: Negotiable

Your reason for being here...

As a Junior Test Analyst within our Digital Function, your passion and purpose are to make sure the products we create work seamlessly and just flow for our customers. Your focus will be to provide testing support to the Test Function across complex, multi-platform and dynamic business systems as one of our very own junior testers.

The way you roll...

You're passionate about technology and quality (obviously), with a hunger to learn new skills and a penchant for staying positive when working under pressure. We're one big family here at DRPG, so it's vital that you're a team player who really cares about your teammates.

Due to the nature of your role, you'll be a cracking problem solver and creative thinker, always looking for a solution with big, bold ideas. This will make your commitment to delivering on our philosophy 'anything' possible,' a breeze.

How you make it all possible...

You'll join our digital team and take the role of Junior Test Analyst on our digital projects. You will work within a testing team and work closely with the Test Lead, UX Designers, software engineers, project managers and of course other testers to ensure quality assurance across complex, multi-platform and dynamic business systems.

- Work alongside the Test Analysts to ensure a high level of quality assurance and testing coverage is achieved across all digital projects you are working on.
- Analyzing requirements and designs to capture issues early in the production process.
- Supporting the execution of manual testing on digital solutions using functional testing methods.

- Compiling test reports and updating issue tracking tools with detailed reproduction steps.
- Able to assist with testing of software products, regression testing of products, reporting of defects and testing of defect corrections as required.
- Recording of software defects and provide thorough technical descriptions and evidence, and to provide feedback and regular updates to the team.
- To assist with the preparation of Test plans and test scripts and able to demonstrate the testing scenarios.

What's in your toolbox...

You'll have a strong desire to learn with an interest in a career in software testing. Experience in a digital/IT environment would be beneficial but isn't essential.

- ISTQB Foundation certificate in testing would be beneficial but not essential
- Experience in using issue tracking tools including JIRA/GitLab would be an advantage.
- Experience would be beneficial in both cross browser and device testing.
- Must have experience of working within teams.
- Must have experience of working collaboratively with others.
- Must have experience of working autonomously.
- You are passionate about technology and testing.
- You have a hunger to learn new skills.
- You have an eye for detail and take pride in what you do.
- You have good organisational skills and can prioritise your workload.

Get to know us...

We're one of the most unexpectedly all-round capable communications agencies that's been on the go for years – ever since our head honcho set up shop in a shed back in 1980, in fact.

Since then, we've made it our mission to make anything possible for our many and varied clients, putting our creative flair into delivering strategic communication campaigns, digital solutions, film and videos, events, exhibitions, and a whole lot more in between. We've grown a lot, but we've kept everything that made us great, back from the very day we first started out. Our global HQ and largest studios are smack bang in the middle of the UK and well worth a visit to see for yourself!

Hang on, there's more...

The role is flexible based from home and our main office in Hartlebury, but there will be times when you may need to work from our other offices and undertake other related commercial duties both in the UK and overseas. Flexibility is key!

We're a friendly team. We really, really welcome anyone who wants to become part of a brilliant company. If you're passionate with a cracking drive to deliver on our 'anything's possible' mindset, we'd love to hear from you!

DRPG is an equal opportunities employer.

Data Security (not super exciting, but necessary)

At all times you must work within the guidelines set out in the DRPG Information Security Policy and your Employee Confidentiality Agreement. Failure to do so may be treated as gross misconduct.

You must also work within the guidelines set out in DRPG's Health & Safety Policy and Team Handbook.
