

Job Title: XR Operator & Technical Facilitator

Department: Film

Location: Hartlebury

Reporting To: Technical Lead - Film

ABOUT US

DRP Group are an award winning, fully integrated, global creative communications agency. Whether it's live events, exhibitions, digital, film or print – we always provide the right medium for the message and deliver it with unrivalled engagement, innovation and results. Our facilities in the Midlands, Windsor the North & London include 4.2 acres of production facilities, 8 fully equipped edit suites, 2 state-of-the-art studios, digital innovation labs, a dedicated print facility, 3D projection cinema, construction centre and contemporary design suite.

Our Film team is headquartered in the West Midlands with two offices in London. We produce innovative, multi-purpose, story led content across all platforms. We have won numerous Cannes Dolphins, EVCOMs and have been ranked number one in the industry by Televisual.

With the DRPG Film Team you will join an ambitious group of like-minded individuals focused on excellence and innovation in film-making. You will have the opportunity to develop and grow within a nurturing and friendly environment at an agency that is constantly moving forwards.

THE PERSON

We're looking for an XR Operator & Technical Facilitator to join our Film team in Hartlebury.

- You will work in our Film production team of highly talented camera operators, sound recordists, assistants, 3D environment creators, colourists, producers and directors.
- You are highly knowledgeable with real time 3D graphics solutions – such as 'Unreal Engine' and are skilled at the setup and configuration – for use with chroma key and other real time filming elements.
- You are very comfortable in a studio environment and have the ability to ensure successful calibration, operation and delivery of tracking and lens encoders while working with a full crew, including producers, camera operators and directly with our clients.
- You are adept in the configuration of a variety of cameras – including Sony, Canon and Panasonic PTZs.
- You are a creative individual who can demonstrate your contribution to successful studio and location filming, and a desire to input with suggestions during the planning and rehearsal phases, which elevate the final films to the highest possible level.

- Your technical knowledge will demonstrate that you have mastered a variety of configurations, including the use of camera tracking technology and you will be fully confident to liaise with the wider team, to ensure correct supply of pre-produced assets and the ability to load and test this content, as well as returning tracking and visual/audio data to the graphics team upon the conclusion of a session.
- In addition to a strong level of experience with Unreal, you are also aware of Aximmetry / Zero Density software and setup of 3D models for use within a live environment.
- You are on a continuous quest to learn and better yourself through collaboration with others and mastering your craft.
- You are a highly motivated, self-starter who can work independently as well as part of a team.

DATA SECURITY

At all times you must work within the guidelines set out in the **DRPG's** Information Security Policy and your Employee Confidentiality Agreement. Failure to do so may be treated as gross misconduct.

HEALTH AND SAFETY

At all times you must work within the guidelines set out in **DRPG's** Health & Safety Policy and Employee Manual.

FURTHER NOTES

The role will be based at our Midlands facilities, but candidates must be prepared to travel across the UK with routine nights away from home when shooting on location – in line with COVID guidelines at the time.

You will be expected to work flexibly and undertake other related commercial duties both in the UK and overseas as the company may from time to time reasonably require.

The **DRP Group** is an equal opportunities employer.
